

Minimum requirements for CSA Reader for Windows PC

- Can only be installed on a Windows based PC computer
- Windows 7, Windows 8.1, or Windows 10 installed
- Processor: 2 gigahertz (GHz)
- RAM: 2 gigabyte (GB)
- Hard disk space: 200 MB
- Graphics card: Microsoft DirectX 10 graphics device with WDDM driver
- Framework: .NET 4.5.1
- Internet connection: required for Activation, and Updates
- Screen Resolution: standard ratio: 1280 x 1024 pixels or widescreen: 1366 x 768 pixels

Minimum requirements for CSA Reader for Web

- Supported browsers: Internet Explorer, Safari, Firefox, Chrome
- Processor: 2 gigahertz (GHz)
- RAM: 2 gigabyte (GB)
- Graphics card: Microsoft DirectX 10 graphics device with WDDM driver
- Framework: .NET 4.5.1
- Must be connected to the internet throughout
- Screen Resolution: standard ratio: 1280 x 1024 pixels or widescreen: 1366 x 768 pixels

Minimum requirements for CSA Reader for iPad and iPhone

- Can only be installed on an iPad, iPad mini, iPhone (3GS/4/4S/5), or iPod touch (3rd generation and above)
- iOS 7.0 or higher installed
- 300MB free space before downloading the CSA Reader app

Minimum requirements for CSA Reader for Android

- Operating System: Android 2.3 or higher installed
- Device specs of 1.2GHz dual core processor, and 1GB RAM
- Recommended 1080 X 1920 resolution
- 300MB free space before downloading the CSA Reader app

Please note the Android OS installs applications to internal memory rather than the SD card by default. Even if your SD Card has a large amount of free space, you will require 17MB free on internal memory. After the app is installed the space required to load your book is 300MB (external or internal depending on the user's device settings).
